Judge Kenesaw Mountain Landis, of ler case is being watched with interest the United States District Court, at by his friends at the Capital. Chicago, before whom John D. Rockefeller was examined Saturday, is well re-membered here, because of his service es private secretary to Walter Q. Gresham, from 1893 to 1895.

Judge Gresham had commanded the regiment in which Judge Landis' father served, and there had always been a yesterday that Mrs. Loeb was seriously warm friendship between Gresham and the Landis family. When Judge Gresham was leaving for Washington to become Secretary of State in the Cabinet of a the Democratic President, and asked young Landis to go with him as private secrétary, Landis turned Democrat and ac-

cepted.

He had been practicing law in Chicago but clients were few and far between and the chance of an official experience in the National Capital was too alluring to resist. The State Department woke up when Landis came. His manner was new, his style of address original, and his seeming profundity was intermixed with a humorous way that left the uninitiated in doubt as to whether the young ma was a joker or a person of great depth. Those Were Busy Days.

There was much important work done in the State Department while Landis was there. The Cleveland policy to put Oueen Liliuokalani on the Hawailan throne was undertaken, the Bering Sea arbitration was on, the Venezuelan boundary controversy with England was conceived, and the Allianca affair oc-

Judge Landis wears his hair rather long and has a habit of passing his hands through it. He is a young man, about forty, with an old man's manner. His language is picturesque and his sayings quaint.
